I cannot get into CIS right now to check whether the company name was claimed CBI by the submitter; so, I am xxxing out the PMN number from the email below. But this is the case that I emailed you about on the CBI side last Friday to make this a Hair on Fire case. What can I tell them?

For Internal Use Only

Dear Ex. 6 Personal Privacy (PP) and Ex. 6 Personal Privacy (PP)

I am emailing to inform you that I submitted a document via CDX today for this PMN P-16-XXXX. The document is a letter signed by the DSM business indicating the urgency we need considered for this PMN. The letter also mentions the monetary losses being incurred as a result of the lengthy amount of time to which this PMN has been subject.

We would greatly appreciate an update on the status and expected timeline of this PMN case in addition to elevating the case to a higher priority.

Kind Regards,

Ex. 6 Personal Privacy (PP)

Subject: PMN P-16-0512 priority for DSM

For Internal Use Only

Dear Ex. 6 Personal Privacy (PP)

I spoke with Ex. 6 Personal Privacy (PP) today regarding PMN P-16-0512. My company's stakeholders are very eager for the outcome of this PMN. After years of mutual communication between the EPA and DSM, we are hoping to soon reach the conclusion of this case. In speaking with Ex. 6 Personal Privacy (PP) he told me that this PMN is awaiting a human health hazard assessment where an exposure report will be generated. From this, an Option Meeting will occur where the recommendation for a determination on the substance will be made. This will then be forwarded to management to create and send a determination document for the substance.

Ex. 6 Personal Privacy (PP) informed me that this PMN has been on a priority list since June of 2019, but that it is taking a long time to be considered for the final assessment due to incoming 2019 PMNs taking priority, as well as some newer internal EPA personnel requiring training.

At Ex. 6 Personal Privacy (PP)'s suggestion I am elevating my communication to you in an attempt to see if the pending assessment of this PMN can be further prioritized. Ex. 6 Personal Privacy (PP) wasn't able to give me an indication of when the pending assessment could be completed. Any assistance you can offer regarding the priority and concrete timing of this PMN would be greatly appreciated. Please feel free to call my mobile number noted in my signature below. Thank you.

Please also note that I have cc'd my colleague, Diane Blenner, who was named as the successor contact of this PMN by the former DSM contact, James Gasper, upon his retirement from DSM in December of 2018. I then picked up the communication aspects of this PMN earlier this year during a temporary leave that Ms. Blenner took during 2019.

Kind Regards,

Brian
